SUMMARY

Results-driven Systems Engineer with nearly 3 years of experience at Winman Software, specializing in systems administration, IT infrastructure support, and team supervision. Experienced in managing Windows environments, Active Directory/Domain Controller operations, Task Scheduler, and administrative task automation using Batch, PowerShell, and Python. Skilled in network troubleshooting, basic Linux administration, root-cause analysis, and cross-functional collaboration. Based in Dubai and available to join immediately for Systems Engineer, IT Support Engineer, System Administrator, or IT Infrastructure roles.

PROFESSIONAL EXPERIENCE

Winman Software

11/2023 – 08/2026 | Mangalore, India

System Engineer

- Administered Windows systems and IT infrastructure supporting 150–300 users, including Active Directory, Domain Controller operations and Task Scheduler automation.
- Managed 50+ weekly support tickets through prioritization, troubleshooting, documentation and closure.
- Supervised a team of six, assigning workloads, monitoring performance and ensuring timely delivery.
- Automated administrative tasks using PowerShell, Batch and Python, saving several hours of manual effort each week.
- Performed system maintenance, root-cause analysis and functional, regression and validation testing.
- Collaborated with development teams and stakeholders on issue resolution, product enhancements and process improvements.

Costal Institue of Technology

07/2022 – 08/2022 | Mangalore

IoT & Embedded Systems Intern

Completed hands-on training in IoT and embedded systems, working with sensors, microcontrollers, and basic hardware–software integration to develop practical projects.

EDUCATION

B.E. Electronics & Communication Engineering

2019 – 2023 | Mangalore, India

NMAM Institute of Technology

CGPA: 8.46 / 10

SKILLS

Systems & IT Support — End-User Support, IT Infrastructure, Active Directory, Task Scheduler, Ticket Management, System Monitoring, Troubleshooting and Root Cause Analysis

Operating Systems — Windows Administration, Linux (Ubuntu, CLI, basic administration)

Scripting & Automation — PowerShell, Batch Scripting, Python

Networking — TCP/IP, DNS, DHCP, SSH, LAN/WLAN Fundamentals, Network Troubleshooting

Software Testing — Manual Testing — Functional, Regression & Validation Testing

Tools — Microsoft Excel, Word, PowerPoint, Git, GPO, Windows, Task Scheduler

Engineering Fundamentals — Embedded Systems, 8051 Microcontroller, Digital System Design, programming, Arduino, Raspberry Pi

Soft Skills — Communication, Team Leadership, Collaboration, Prioritization, Problem Solving, Time Management and Attention to Detail
